

Kahoot!

Quiz Games

ONE GAME FOR EACH TOPIC

What is Kahoot?

Kahoot! is a game-based learning platform, used as educational technology in schools and other educational institutions. Its learning games, "kahoots", are user-generated multiple-choice quizzes that can be accessed via a web browser or the Kahoot! app.

How do I access the Kahoot?

A link to the Kahoot! will be provided for each topic along with the other First Step to Service materials.

How is the Kahoot played?

The teacher will use the link provided to present the Kahoot!. Students will go to kahoot.it to put in the "room code" for the game and enter their name. Students will see the questions presented by the teacher and select a multiple choice option on their device.

** If you play as a guest or on a free account, there may be a 10-player limit. If this occurs, classrooms can play in "Team Mode" and have students work together to answer the questions.
